## **ESC Software Invited to Join Information Technology Alliance**

**Tempe, AZ – March 6<sup>th</sup>, 2006** – Being recognized for its commitment to providing superior technology solutions to small and medium-size businesses, ESC Software has joined Information Technology Alliance (ITA), a highly regarded group of top VARs, CPA Firms and technology product/service providers. This invitation has been extended due to the high level of support and service ESC Software has provided businesses in their market and for their commitment to being a leader in the industry.

“The focus of ITA is to provide an independent forum for leading businesses to share information, assess the nature and direction of the profession and to accomplish their own business goals,” said Ron Eagle, president of ITA. “By participating in ITA, ESC Software has shown that they are committed to the long-term success of their organization and their clients.”

“Being an ITA member is a great way to meet and network with other leading industry firms,” said Alan Hardy, CPA, CISA – President of ESC Software. “We are always looking to better our firm’s infrastructure and operations. Having a forum to do so allows both ESC Software and our clients to be more successful.”

### **About ITA**

ITA is an association of leading professional services firms whose purpose is to share experiences, information, and build relationships that can improve the way its member firms, and their clients, do business. Because the ITA membership roster consists of the most highly regarded mid-market technology professionals and product/service providers, ITA employs its collective influence to act as an authoritative voice for the IT profession.

### **About ESC Software**
