## **ESC Software Partners with Fishbowl Inventory – the #1 Selling Inventory Control Program for QuickBooks Enterprise**

ESC Software has partnered with Fishbowl Inventory to provide extended inventory and warehouse solutions to our QuickBooks Enterprise customers. Fishbowl Inventory was designed from the start to provide advanced inventory control and manufacturing capability for QuickBooks users.

QuickBooks users can now address their inventory control needs even as they grow to a mid-market size company that does well over \$50 million a year in business. Multi-location inventory control, point of sale, manufacturing, serial/lot number tracking, pick/pack and ship functions are all typical of the type of advanced features that Fishbowl Inventory provides. This brimming feature set made Fishbowl Inventory the #1 inventory control solution for small and medium-sized businesses using QuickBooks.

“We believe strongly in the Fishbowl Inventory solution for our QuickBooks Enterprise customers. It provides the added features a growing distributor or manufacturer needs, while allowing them to stay on QuickBooks Enterprise – their idea of ‘moving up without moving on’ satisfies the need for advanced features, while remaining cost-effective,” said Alan Hardy, CPA, CISA, CITP, President of ESC Software.

### **About ESC Software**

Since 1989, ESC Software has been one of Arizona’s leading providers of business management software for growing organizations of all kinds, including accounting, distribution, manufacturing and service/repair industries. ESC Software provides a full breadth of services such as pre-sales consulting, needs analysis, systems review and design, implementation, training and support.

By combining a well-honed implementation methodology with innovative ideas and a personalized approach, the firm has successfully aided hundreds of clients in the Southwest and across the nation from its headquarters in Tempe, Arizona. For more information, please visit [www.escsoftware.com](http://www.escsoftware.com).

### **About Fishbowl**

A private company based in Orem, Utah, Fishbowl and its cornerstone product, Fishbowl inventory, make it possible for every small to mid-size company to have the level of flexible and mobile inventory control solutions large organizations enjoy. Since 2001, Fishbowl has become the #1 requested inventory solution for QuickBooks. For QuickBooks users, the flexible and cost-effective combination of QuickBooks and Fishbowl can grow along with you as your company grows. Fishbowl Inventory is available from [WWW.FISHBOWLINVENTORY.COM](http://WWW.FISHBOWLINVENTORY.COM) and from a growing network of VARs and online channel partners throughout the U.S. and Canada.

### **About Intuit, Inc.**

Intuit Inc. is a leading provider of business and financial management solutions for small and mid-sized businesses; financial institutions, including banks and credit unions; consumers and accounting professionals. Its flagship products and services, including QuickBooks®, Quicken® and TurboTax® software, simplify small business management and payroll processing, personal finance, and tax preparation and filing. ProSeries® and Lacerte® are Intuit's leading tax preparation software suites for professional accountants. The company's financial institutions division, anchored by Digital Insight, provides on-demand banking services to help banks and credit unions serve businesses and consumers with innovative solutions.

Founded in 1983, Intuit had annual revenue of \$3.1 billion in its fiscal year 2008. The company has approximately 8,000 employees with major offices in the United States, Canada, the United Kingdom and other locations. More information can be found at [www.intuit.com](http://www.intuit.com).
