## **ESC Software Selected as Intuit Solution Provider for QuickBooks Enterprise**

ESC Software announced today that it has been selected as an Intuit® Solution Provider. ESC Software now offers a full range of value-added consulting services for Intuit QuickBooks® Enterprise Solutions ([www.enterprisesuite.com](http://www.enterprisesuite.com)) developed by Intuit Inc., a leading provider of business and financial management solutions for small and mid-sized businesses, consumers and accounting professionals.

The Intuit Solution Provider Program will enable ESC Software to better serve regional clients and build their business through the sale, implementation and service of integrated solutions. The program's lead offering, Intuit QuickBooks Enterprise Solutions, is a flexible and affordable business management solution designed specifically for growing businesses. QuickBooks Enterprise helps businesses efficiently input, organize and access the information they need to manage finances, inventory, sales, purchasing and employees, and make key decisions for growth.

"We are very excited to have ESC Software as an Intuit Solution Provider," said BJ Schaknowski, Intuit's director of sales. "Their expertise in reselling and supporting mid-market business software solutions and their track record for customer satisfaction make them a valuable addition to our Solution Provider network."

"Our clients need more than entry-level accounting solutions," said Alan Hardy, CPA, President of ESC Software. "They need software with more functionality, security, transaction volume and system controls than what is offered by your basic off-the-shelf accounting solutions."

"QuickBooks Enterprise Solutions has the power and flexibility to meet our clients' needs as they grow, and at a price that is thousands below competitive products," he said. "It bridges the gap between off-the-shelf accounting software and more traditional mid-market accounting packages."

### **About ESC Software**

Since 1989, Alan Hardy, CPA, CISA, CITP and ESC Software has been one of Arizona's leading providers of business management software for growing organizations of all kinds, including accounting, distribution, manufacturing and service/repair applications. ESC Software provides a full breadth of services such as pre-sales consulting, needs analysis, systems review and design, implementation, training and support.

By combining a well-honed implementation methodology with innovative ideas and a personalized approach, the firm has successfully aided hundreds of clients in the southwest and across the nation from its headquarters in Tempe, Arizona. For more information, please visit [www.escsoftware.com](http://www.escsoftware.com).

### **About Intuit, Inc.**

Intuit Inc. is a leading provider of business and financial management solutions for small and mid-sized businesses; financial institutions, including banks and credit unions; consumers and accounting professionals. Its flagship products and services, including QuickBooks®, Quicken® and TurboTax® software, simplify small business management and payroll processing, personal finance, and tax preparation and filing. ProSeries® and Lacerte® are Intuit's leading tax preparation software suites for professional accountants. The company's financial institutions division, anchored by Digital Insight, provides on-demand banking services to help banks and credit unions serve businesses and consumers with innovative solutions.

Founded in 1983, Intuit had annual revenue of \$3.1 billion in its fiscal year 2008. The company has approximately 8,000 employees with major offices in the United States, Canada, the United Kingdom and other locations. More information can be found at [www.intuit.com](http://www.intuit.com).
